Tool details

***FOR RESEARCH USE ONLY**

Name: Anti-alpha tubulin [YL1/2]

Alternate name:

Class: Monoclonal

Conjugate: Unconjugated

Description: The antibody recognises tubulin from yeast as well as from birds and mammals. It appears to be specific for the alpha subunit of tubulin.

Purpose:

Parental cell:

Organism:

Tissue:

Model:

Gender:

Isotype:

Reactivity: Yeast ; Avian ; Mammals

Selectivity:

Host: Rat

Immunogen: Yeast tubulin

Immunogen UNIPROT ID:

Sequence:

Growth properties:

Production details:

Formulation:

Recommended controls: IgG2a

Bacterial resistance:

Selectable markers:

Additional notes:

Target details

Target: Alpha tubulin (specifically Tyr-Tubulin)

Target alternate names:

Target background: The antibody recognises tubulin from yeast as well as from birds and mammals. It appears to be specific for the alpha subunit of tubulin.

Molecular weight:

Ic50:

Applications

Application: ELISA ; IHC ; RIA ; WB

Application notes:

Handling

Format: Liquid

Concentration:

Passage number:

Growth medium:

Temperature:

Atmosphere:

Volume:

Storage medium:

Storage buffer:

Storage conditions:

Shipping conditions: Shipping at 4° C
