Tool details

***FOR RESEARCH USE ONLY**

Name: Anti-CD11a (Integrin Subunit Alpha L) [SPVL12]

Alternate name: ITGAL; LFA-1A

Class: Monoclonal

Conjugate: Unconjugated

Description: ITGAL encodes the integrin alpha L chain. Integrins are heterodimeric integral membrane proteins composed of an alpha chain and a beta chain. This I-domain containing alpha integrin combines with the beta 2 chain (ITGB2) to form the integrin lymphocyte function-associated antigen-1 (LFA-1), which is expressed on all leukocytes. LFA-1 plays a central role in leukocyte intercellular adhesion through interactions with its ligands, ICAMs 1-3 (intercellular adhesion molecules 1 through 3), and also functions in lymphocyte costimulatory signalling.

Purpose:

Parental cell:

Organism:

Tissue:

Model:

Gender:

Isotype:

Reactivity: Human

Selectivity:

Host: Mouse

Immunogen: Immunization of BALB/c mice with cells of the T4+T8- cytotoxic T lymphocyte clone HG-38

Immunogen UNIPROT ID:

Sequence:

Growth properties:

Applications

Application: FACS ; IP

Application notes:

Handling

Format: Liquid

Concentration: 0.9-1.1 mg/ml

Passage number:

Growth medium:

Temperature:

Atmosphere:

Volume:

Storage medium:

Storage buffer: PBS with 0.02% azide

Storage conditions: -15° C to -25° C

Shipping conditions: Shipping at 4° C
