Tool details

Cancer Tools.org *FOR RESEARCH USE ONLY

Name: Anti-HFG [10D-4D]

Alternate name:

Class: Monoclonal

Conjugate: Unconjugated

Description: Expressed on both endothelial cells and vascular smooth muscle cells

Purpose: Parental cell: Organism: Tissue: Model: Gender:

Isotype: IgG1 kappa Reactivity: Human

Selectivity: Host: Mouse

Immunogen: P14210

Immunogen UNIPROT ID: P14210

Sequence:

Growth properties: Production details:

Formulation:

Cancer Tools.org Recommended controls: HGF protein

Bacterial resistance: Selectable markers: Additional notes:

Target details

Target: Hepatocyte Growth Factor

Target alternate names:

Target background: Expressed on both endothelial cells and vascular smooth muscle cells

Molecular weight: A 69 kDa + 34 kDa dimeric protein

Ic50:

Applications

Application: ELISA; WB

Application notes:

Handling

Format: Liquid **Concentration:** Passage number:

Growth medium:
Temperature:
Atmosphere:
Volume:

Storage medium: Storage buffer: Storage conditions:

Shipping conditions: Shipping at 4° C
