Tool details

***FOR RESEARCH USE ONLY**

Name: Anti-MHC Class II beta chain (human) [DA6.231]

Alternate name:

Class: Monoclonal

Conjugate: Unconjugated

Description: The antibody is directed against the beta chain of human MHC class II antigens. It reacts with cell surface MHC antigens and cross reacts with MHC Class II antigens of other species.

Purpose:

Parental cell:

Organism:

Tissue:

Model:

Gender:

Isotype:

Reactivity: Human

Selectivity:

Host: Mouse

Immunogen: Daudi Burkitt lymphoma cells

Immunogen UNIPROT ID:

Sequence:

Growth properties:

Production details:

Formulation:

Recommended controls: IgG1

Bacterial resistance:

Selectable markers:

Additional notes:

Target details

Target: Human MHC Class II beta chain

Target alternate names:

Target background: The antibody is directed against the beta chain of human MHC class II antigens. It reacts with cell surface MHC antigens and cross reacts with MHC Class II antigens of other species.

Molecular weight:

Ic50:

Applications

Application:

Application notes:

Handling

Format: Liquid

Concentration:

Passage number:

Growth medium:

Temperature:

Atmosphere:

Volume:

Storage medium:

Storage buffer:

Storage conditions:

Shipping conditions: Shipping at 4° C
