Tool details

***FOR RESEARCH USE ONLY**

Name: Anti MRCKa [2A3]

Alternate name:

Class: Monoclonal

Conjugate: Unconjugated

Description: The MRCKLRAP35a-MYO18A complex plays a major role in the assembly of the lamellar actomyosin retrograde flow bundles important for persistent membrane protrusion. The complex may also represent a mode of transmitting signals from leading edge to cell center, as part of the coordination mechanism important for efficient and persistent directional migration.

Purpose:

Parental cell:

Organism:

Tissue:

Model:

Gender:

Isotype:

Reactivity:

Selectivity:

Host:

Immunogen:

Immunogen UNIPROT ID:

Sequence:

Growth properties:

Production details:

Formulation:

Recommended controls:

Bacterial resistance:

Selectable markers:

Additional notes:

Target details

Target: MRCK

Target alternate names:

Target background: The MRCKLRAP35a-MYO18A complex plays a major role in the assembly of the lamellar actomyosin retrograde flow bundles important for persistent membrane protrusion. The complex may also represent a mode of transmitting signals from leading edge to cell center, as part of the coordination mechanism important for efficient and persistent directional migration.

Molecular weight:

Ic50:

Applications

Application: IP ; WB

Application notes:

Handling

Format: Liquid

Concentration: 0.9-1.1mg/ml

Passage number:

Growth medium:

Temperature:

Atmosphere:

Volume:

Storage medium:

Storage buffer: PBS with 0.02% azide

Storage conditions: -15° C to -25° C

Shipping conditions: Shipping at 4° C
