Tool details

***FOR RESEARCH USE ONLY**

Name: Anti-SDCBP [K10P3D5*H3]

Alternate name:

Class: Monoclonal
Conjugate: Unconjugated
Description: Syntenin-1 is a likely adaptor protein. In adherens junctions may function to couple syndecans to cytoskeletal proteins or signaling components. Syntenin-1 appears to couple transcription factor SOX4 to the IL-5 receptor (IL5RA). Protein may also play a role in vesicular trafficking. Seems to be required for the targeting of TGFA to the cell surface in the early secretory pathway.
Purpose: Marker
Parental cell:
Organism:
Tissue:
Model:
Gender:
Isotype: IgG1 kappa
Reactivity: Human
Selectivity:
Host: Mouse
Immunogen: Peptide HIIKRMAPS
Immunogen UNIPROT ID:
Sequence:
Growth properties:
Production details:
Formulation:
Recommended controls:

Western Blot- overexpression lysates, Jurkat cell lysates
Bacterial resistance:
Selectable markers:
Additional notes:

Target details

Target: Syndecan Binding Protein, (Syntenin-1) (SDCBP)

Target alternate names:

Target background: Syntenin-1 is a likely adaptor protein. In adherens junctions may function to couple syndecans to cytoskeletal proteins or signaling components. Syntenin-1 appears to couple transcription factor SOX4 to the IL-5 receptor (IL5RA). Protein may also play a role in vesicular trafficking. Seems to be required for the targeting of TGFA to the cell surface in the early secretory pathway.

Molecular weight: 32 kDa

Ic50:

Applications

Application: WB
Application notes:

Handling

Format: Liquid
Concentration: 1 mg/ml
Passage number:
Growth medium:
Temperature:
Atmosphere:
Volume:
Storage medium:
Storage buffer: PBS with 0.02% azide
Storage conditions: -15° C to -25° C
Shipping conditions: Shipping at 4° C
