Tool details

***FOR RESEARCH USE ONLY**

Name: Anti-Von Willebrand Factor [F8/44/20] rAb

Alternate name:

Class: Recombinant

Conjugate: Unconjugated

Description: Von Willebrand factor (vWF) mediates platelet adhesion to injured endothelium, the first step in hemostasis, and helps maintain factor VIII levels. When vWF is deficient, patients have a bleeding disorder called von Willebrand disease (vWD).

Purpose:

Parental cell:

Organism:

Tissue:

Model:

Gender:

Isotype: IgG1

Reactivity: Human

Selectivity:

Host: Mouse

Immunogen: Von Willebrand factor isolated from human plasma

Immunogen UNIPROT ID:

Sequence:

Growth properties:

Production details:

Formulation:

Recommended controls:

Bacterial resistance:

Selectable markers:

Additional notes:

Target details

Target: Von Willebrand factor (VWF)

Target alternate names:

Target background: Von Willebrand factor (vWF) mediates platelet adhesion to injured endothelium, the first step in hemostasis, and helps maintain factor VIII levels. When vWF is deficient, patients have a bleeding disorder called von Willebrand disease (vWD).

Molecular weight:

Ic50:

Applications

Application:

Application notes:

Handling

Format: Liquid

Concentration:

Passage number:
