Tool details

***FOR RESEARCH USE ONLY**

Name: R-3327 G cell line

Alternate name:

Class:

Conjugate:

Description: The in vitro cell line R-3327-G was derived from the parental R3327 tumor discovered by W.F. Dunning in a 22-month-old inbred Copenhagen male rat. Upon several in vivo passages of the original tumor, sublines were developed.

Purpose:

Parental cell:

Organism:

Tissue:

Model: Cancer Model

Gender:

Isotype:

Reactivity:

Selectivity:

Host:

Immunogen:

Immunogen UNIPROT ID:

Sequence:

Growth properties:

Production details:

Formulation:

Recommended controls:

Bacterial resistance:

Selectable markers:

Additional notes:

Target details

Target: Tumor expressing cell line

Target alternate names:

Target background:

Molecular weight:

Ic50:

Applications

Application:

Application notes:

Handling

Format: Frozen

Concentration:

Passage number:

Growth medium:

Temperature:

Atmosphere:

Volume:

Storage medium:

Storage buffer:

Storage conditions:

Shipping conditions: Dry ice
